# Biography

George Tillson was born March 26, 1928 in Tillsonburg, Ontario, Canada (town founded by his great, great grandfather, population now about 10,000).

In 1938 I started a collection of 5 & 10 cent Canadian coins from circulation. During WWII I had full time summer jobs enabling me to add to my collection. I also tried to find uncirculated pieces, but this was very difficult. In 1946 I wrote to the Ottawa mint to try to find a source for new coins. Thereafter I was able to buy a new set each year from the mint.

With the end of WWII returning military personnel had foreign coins. I started collecting these from relatives and from friends of my two older sisters.

In 1952 I was in Korea in the US Army. One day while walking through a trench on the front line I spotted a fellow looking through a coin book. It was John Davenport's book "European Crowns Since 1800." I looked at the book a number of times in the next couple of weeks and then wrote to Dr. Davenport. He sent a complimentary copy to me in Korea. From then on I pursued the collection of Crowns, mostly from Hans Schulman, Dr. Davenport's recommendation. I accumulated about 40 assorted crowns while in Korea, which was impractical and risky. About the only person to whom I could send them was my father who lived in Canada, but that presented customs problems. When I expressed my concern to Hans, he volunteered to store purchases for me until I returned home (Denver) the next year. I continued to purchase from Flans until his death.

By 1958 I was living in New York City. I was introduced that year to the New York Numismatic Club by Aaron Feldman ("Buy the book

before the coin"). Aaron was indeed a scholar and student of coins. I was thrilled to be invited as his guest at the next monthly meeting of the prestigious NY Numismatic Club and honored to be elected a member a few months later. Many renown collectors, names that I had read in the ANA Journal, were members and frequent contributors to the programs: Gallo, Kortjohn, Picker, Bullowa (she came up from Philadelphia each month), Mrs. Norweb (she came every few months from Cleveland), Wormser, Bareford, Christensen, Foxie Steinberg, the Clain-Stefanelli's came every few months from Washington, Henry Grunthel, Tom Morris and Dr. Julian Blanchard, latter two came religiously each month with bank note essai proofs, magnificent specimens. Dr. Blanchard & I became very good friends. He was a scientist at Bell Labs where coincidentally my wife, Marsha, was also employed, as supervisor in Statistical Quality Control. Marsha graduated in mathematics from the University of Chicago in 1943.

An important segment of my current life is running and racing. Almost every weekend Marsha and I participate in area races. I am also active in race management and running organizations. Presently I am the Long Distance Running Chairmen of the Niagara Association, USA Track & Field. I devote about 75% of my time to running related activities.

Life member of ANA and CNA. Life Associate of ANS.

Educated at McGill University, Montreal, BS & Indiana University, MBA.

By the way Gearge ran a 3:33 New York City Marathon in 1988 and his last marathon was in 1990.

## Biography

John William Wilson was born in Milwaukee, WI in 1943. He served in the US Marine Corp. from 1962 to 1966. He married Nancy Opitz April 27, 1968. John was employed as a Milwaukee County Deputy Sheriff until his recent retirement. Nancy Joyce (Opitz) Wilson was born in Milwaukee in 1941. She is the sister of the noted numismatic author Charles Opitz. Nancy was employed as a printing supervisor/buyer with the Milwaukee Public Schools from 1961 until her retirement this past year.

For many years John and Nancy have shared an avid interest in collecting U.S. Paper Money, Wisconsin Tokens and Medals, Souvenir Cards, Porcelain Coins and Medals, Civil War Tokens and Numismatic literature. Both have been active participants in many other areas of numismatics.

John and Nancy began collecting which then led to exhibiting, speaking, researching and participating in many areas of interest within the numismatic fraternity. They have won many awards from local to national. Some of the awards they have won are Best-In-Show at: ANA, CSNS, FUN, ISNA, MSNS, ILNA, IPMS, PMCM, NOW and six different Wisconsin Coin Clubs. They have been the recipients of the CSNS Elston G. Bradfield and FUN Charles Fine Literary Awards. John has won the ANA Medal of Merit and both have won the Glenn Smedly Award. John & Nancy received the Krause Publications Numismatic Ambassador Award in 1990.

They have been very active with the ANA. John and Nancy were Assistant General Chairmen for the 1986 Milwaukee ANA Convention. John was General Chairman for the ANA 100th Anniversary Convention in Chicago in 1991. Both were General Chairmen for the 1990 Milwaukee CSNS Convention. John was Asst. Chairman in 1995. They were intimately involved with the special edition Redbooks printed for the ANA conventions in which they were involved. These editions

are now a very sought after and a valuable collectable for many numismatists.

Both John and Nancy are frequent exhibitors and educational speakers. Both have contributed many articles to numismatic and coin club publications including Bank Note Reporter, FUN Topics and the Centinel. They are both dedicated Numismatists and for many years most of their free time has been spent working on or in some aspect of the hobby.

They have worked tirelessly within the community giving presentations to schools and civic organizations. They have assisted over 10 years with the Milwaukee Boy Scouts Coin Collecting Merit Badge Clinic. In addition, they spend countless hours working with activities to involve and promote numismatics to young and emerging numismatists.

They are both members of many organizations involved with numismatics and are available on a regular basis to speak at them. John is currently the President of Central States Numismatic Society and serves on the ANA Board of Governors. Nancy served four terms on the ANA Board. Both continue to promote the hobby locally and nationally.

If there is a gathering involving numismatics, John and Nancy Wilson are willing participants whether it be organizing, researching, speaking or leading a new effort into yet another area. Belonging to over 33 coin clubs, at all levels, they are kept very busy.

Over the years they have collected in many areas and compiled a sizeable library as well as many interesting items in other areas of collecting. Because they will be moving to Florida in a few years, they have had to downsize their extensive library. They still will collect numismatic books and catalogs in their areas of interest.

A special thanks to both of you for a very positive contribution to numismatics and to all who have had the special opportunity of working with both of you.

## Introduction

- Outstanding, new and fresh numismatic literature is being offered once again in this sale. As you peruse the pages you will find a wide array of literature that fits a range of collecting budgets and interests for placement in your reference library.
- I have been most fortunate, in a short period of time, to have had outstanding consignors for these sales that offer world wide sections of auction catalogues, books, fixed price lists, manuscripts, periodicals and other material for your consideration.
- For example, John & Nancy Wilson have consigned over 130 large cartons of U.S. & Worldwide numismatic literature that will take at least 3 public sale offerings. Likewise, I picked up in California and Oregon the California Gentleman's library a total of 192 cartons of books and other literature. Mr. Tillson sent almost 60 boxes of outstanding literature, while Mr. Nicol sent just a small portion of his superb library. All of these are interspersed throughout these pages. Also in these pages are the consignments from the noted dealer Allen G. Berman, whose peek-a-boo picture emerges from his ad every month in the Bank Note Reporter. Last and not least is Scott Cordry's large consignment of remaining auction catalogues.
- These consignments cover a wide range of collecting interest from ancients to modern, coins to the odd & curious, banking histories to paper money, tokens, medals and more. The famous Harris manuscripts and Frank Katen's manuscript.
- I have tried to share with you not only background information about the authors but also information on the contents. I do not believe a title is descriptive enough, in most cases, and certainly does not help a new collector looking for numismatic literature information or the experienced collector looking for additional information. These descriptions are intended to help in making a more informed judgement about the value of the literature you intend to bid on.

- You will find once again a Table of Contents at the end of the catalogue to help you find the authors much quicker and easier even though the entire catalogue listings are alphabetical.
- I know your bids are very important to you and I welcome your calls prior to the sale to see how your bids are doing and also immediately after the sale. I understand how important it is to check on your results-so please feel free to call, because I appreciate your business.
- We try very hard to mail out all lots within 10 working days after the sale. We mail to those who paid by deposit or credit card immediately.
- I enjoy conducting public auctions as it gives me the opportunity to meet with you. If you cannot attend but would like someone to represent you and bid for you at this public auction, please let me know.
- Enclosed is a new "Want List" that I would like you to fill out and return. We have a new computer program to monitor your "want list" better so we will be able to communicate much faster when we receive new literature. As many of you know, the consignors for the most part give me permission to sell their material outright rather than placing it in auctions, or at times I purchase entire libraries.
- Thank you to each and everyone of you for having interest in this sale and for your business throughout the year.
- I want to thank, once again, the consignors for this sale and also Roland Diederich, who not only assists me but is the one who carries all the boxes up 19 stair steps.
- Now it is time to turn the pages to discover what's behind the cover.

Remy Pangu

#### RAYSON, WILLIAM.

NEWLY DISCOVERED 1940 PRICED JOINT CONVENTION OF IOWA NUMISMATIC ASSOCIATION & CENTRAL STATES NUMISMATIC SOCIETY.

This may be the first auction held for both as the Iowa Numismatic Association was formed in Iowa City, June 19, 1938 with T.R. Hammer as president. #### SOTHEBY & CO.

24-Feb-1954. 306 pp. 37 plates with 35 plates showing obverse/reverse. Fine, green paper covers slightly separating at spine, small tear at bottom of spine, w/prl. The Palace Collections of Egypt. Catalogue of the Important and Valuable Collection of Coins and Medals. The collection was formed by King Farouk of Egypt, who sought coins with a passion-some may even say with an obsession-matched by few collectors in history. His collecting pursuits may have even contributed to his exile from Egypt and the throne. This exile was followed by the sale of his collection by the Egyptian government. The sale was abound with catalogue errors and misjudgments. Probably the most famous was the cataloguing of an 1804 Dollar as though it was a common coin, with no reference to it's value as a great American rarity. This and other such practices, as well as the bid rules established by Egypt make this an extremely interesting catalogue for study.

#### STACK'S.-A COMPLETE SET

FIRST TIME EVER OFFERED. A MAGNIFICENT COMPLETE SET OF STACK'S CATALOGUES WITH 75% CONTAINING THEIR ORIGINAL PRINTED PRICES REALIZED!

"Stack's auction catalogues break down into two distinct styles that mirror the evolving personality of the firm. The first style embraces the period 1935 to 1947 and is characterized in part by a foreign flavor, witness the fact that, in the early sales, the best material tends to be classical or European. In 1939, with the first of a dozen consignments from the David Proskey estate, the quality of the United States segment begins a long trend upward. Whether the material is U.S. or foreign, one can sense a conscious effort to gain numismatic stature; in the better sales, average descriptions run to several sentences; specialized series are attributed to Valentine, Haseltine, Maris or whoever the appropriate authority might be...In the period 1953-1975, Stack's handled many more "name" collections than any of its competition. Included on the list of those receiving our "A" designation are sales such as Empire, Holmes, Cox, Wolfson, Walton, Jay, Miles, DiBello, Massachusetts Historical Society, Hawn and James Stack...Length aside, the preponderance of Stack's catalogues are eminently collectible. The sale of November 22, 1940, boasts that 2700 copies were distributed and it is not appreciably more common than most of the sales going back to 1935. There are, however, roughly a dozen of the least important catalogues that are decidedly scarce...Stack's catalogues are fast becoming a popular collectible and understandably so... As such, they stand as a quasi-official record of contemporary American numismatics and trends therein".-United States Numismatic Literature, Volume Two by John Adams. Adams' review of Stack's sales cover the first 291 sales from 1935 through 1975 with 33 "A" sales & 175 "B" sales that Adams rated for content value and you can be assured that the same value would carry through and up to 1996.

7 This set of 490 auction catalogues from 1935 through 1996 uniformly grades from Very fine-near new to New. 65 of the first hundred sales have the printed prices realized alone! A very long run of prices realized begin with sale #180 dated 23-Sept-1961 and continue to sale #324, 7-Dec-1979. 17 sales have photocopied prices realized.

Many sales are in their original mailing envelopes including early Proskey's 1939 & 1943 sales. A.C. Gies, Jacob Bell, George Hall & E.M. Wharton are both in the regular and bound versions. Dr. Clifford E. Smith is in two size versions, the Empire sale also has the post priced catalogue included. From the 1980's and on most are in their original mailing envelopes.

Many of the catalogues contain the original bid sheets, and in a few cases photocopies, mailing envelopes and estimate sheets. It may be difficult to assemble or even acquire another set as nice as this one for some time.

#### WOODWARD, W. ELLIOT.

And yet the Woodward auction catalogues, taken as a whole, stand above all others. Part of the allure of the Woodward series is the era which it spans. Its beginnings coincide with the infancy of the hobby. Mickley-United States Numismatic Literature, Volume One by John Adams.

#### HEATH, LABAN.

HISTORIC & IMPORTANT! This is H.K. Crofoot's personal copy with Crofoot's Hallmark Stamp (H.K. Crofoot. Moravia, NY) on fly-sheet, and his initials in ink on blank page and 50¢ Fractional Currency page in upper left corner blank area.

H.K. Crofoot was a major collector of U.S. Postage & Fractional Currency along with Civil War coin substitutes and other items. He was considered an expert in the area of Civil War substitute money and published an article on the subject in the March, 1944 issue of the Numismatic Review. He probably collected from the 1890's to probably close to his passing in 1961. His collection contained many rarities including the Five and Ten Cents scrip notes from William Newton & Company, Choice Family Groceries, Newport, Rhode Island, dated July 4, 1862. The store was located close to a Post Office where stamps were handy. Both of these notes actually had pasted on them U.S. Postage Stamps

(one and three cent denominations), which were equal to the amount of the note. Though 25 and 50 cent denominations were issued none are in existence today. Mr. Crofoot considered the "Newton" notes to be the prototypes for the First issue of Postage Currency-though they only circulated in Newport, RI. He also had many rare U.S. Postage and Fractional Currency notes, which included regular issues, experimental, essay, proof and specimen notes.

He also owned examples of the Stamps Pasted on Treasury Paper, that were personally made (and some signed) by Treasure of the United States Francis Elias Spinner (1861-1875). History tells us that Spinner circulated these stamp mock-ups around the Treasury Department and out of this idea was eventually born the First Issue of Postage Currency. The historically important Spinner "stamp" mock-ups, the ultra rare Newton notes, along with many U.S. Postage & Fractional Currency rarities were acquired by the Smithsonian Institute. Other than this information, we can find nothing else in regards to Mr. Crofoot. Possibly some bibliophile can research this fascinating collector and do a story on him.

(1845 - 1894)

IMPORTANT AND SELDOM OFFERED BOOK.

225 Catalogue of Chinese Coins from the VIIth Cent. B.C., to A.D. 621. Including the series in the British Museum. 1892. 443 pp. Illustrations. Fine, contemporary red leatherette, gilt, last 20 pages with some foxing. Edited by Reginald Stuart Poole. Stamp of J. Schulman of Amsterdam. This volume of the Catalogue of Coins describes the earlier coinage of China from the British Museum Collection and other sources. The Museum specimens are distinguished by the numbers being in thick type and by not being included in brackets. The metal of each coin is stated, and its size or average size in inches and its weight or average weight in grains.

An introduction is prefixed explaining the technicalities of the series, two chapters being devoted to the numismatic chronology of Ancient China, and to an alphabetical list of geographical or mint and other names

occurring on the coins.

There seems to be a confusion on Lacouperie's name that makes researching difficult. A Numismatic Bibliography of the Far East: A Check List of Titles in European Languages by Bowker on page 68 shows Lacouperie, Albert Etinne Jean Baptist Terrien de, as well as Coole's Encyclopedia of Chinese Coins Volume 1. & Clain-Stefanelli #8671 shows Terrien de Lacouperie, Albert. Hope this (290.00)helps in your reference research.

## FINE OFFERING OF THE ORIGINAL BRITISH PUBLICATIONS.

The "Sylloge Nummorum Graecorum" series publishes only Ancient Greek Coins and was begun in 1931 by the British Academy. It is a novel and very useful system that was originally intended to assist with die-studies of precious-metal coins and so every coin in most of the collections are pictured. This is accomplished by utilizing extremely scanty descriptions on the left pages with the photographic illustrations (usually of excellent quality) on the right pages.-Ancient Coin Reference Reviews by Kroh.

Please be aware that because of the oversize covers the edges may be slightly creased or show light handling but in all cases the contents are Near new or new unless noted differently.

The only complete set sold in the past couple of years is the set listed by Jean Elsen, The major internationally noted numismatists located in Brussels, in the 1997 Fixed Price literature Book List at approximately \$2150 U.S. Dollars reflecting the rarity.

Ken Lowe, of Money Tree, mentioned that many were destroyed in a warehouse in the early days of W.W.II either by fire of flooding of the main supply. After W.W.II the price was still very strong in trying to track down a complete set as there were very few. The prices are much stronger in Europe then here in the USA as reflected in Jean Elsen's latest offer Sylloge Nummorum Graecorum. Volume II: The Lloyd Collection. Parts I-II: Etruria to Thurium. #### WHITMAN COIN PRODUCTS.

MINIATURE "RED BOOK" 50TH ANNIVERSARY COVER.

This miniature "Red Book" cover was passed out to the attendees of the 1996 ANA convention in Denver, Co., at the Whitman Booth. The cover is printed in the same red cloth and gilt as the very first Red Book was in 1947.

The inside commemorates the 50th Golden Anniversary and has two holes for a 1946 & 1996 Roosevelt dime. Whitman passed out somewhere between 500-1000 of these miniatures at the convention, as I have been told, some with the uncirculated dimes inserted in them and many without the dimes. At the end of the convention the remaining miniature covers were packed and mailed back to Whitman but never arrived being lost in the mail. Red Book collectors may want to consider adding this to their Red Book collection. (20.00)

#### STEPHENS, KARL. INC.

Karl Stephens' began collecting coins at the age of 11, He discovered that he could sell some of the duplicate coins found at the bank to other collectors for a profit. This revelation started him on a long-time profession as a coin dealer.

After graduation from high school, he joined the Air Force. Karl was fortunate to be sent to Europe for three years were he learned about foreign coins. After his discharge he returned to Austria where he worked for the coin firm of Muenzhandlung Lanz in Graz for about six months to expand his knowledge of foreign coinage. While working on his bachelors and master degrees in International Marketing, he continued his connection with them, acting as their U.S. agent as well as selling foreign coins part time.

In 1972 Karl accepted a position with Bowers & Ruddy Galleries of Hollywood, California, as their Foreign Manager. While working there, the opportunity presented itself to purchase and catalogue the important Stanislaw Herstal Collection of Polish Coins. This quirk of fate

has permitted him to specialize in Polish coins, and Karl is the largest dealer in this area of the world. Karl left Bowers & Ruddy in 1976, after the department had grown to a total of six people, and was the vice president

in charge of foreign sales.

Since establishing his business in 1976, he has had the good fortune to grow in size and to have made many valuable friendships with collectors and dealers across the globe. His wife, Joanne, manages the office and Janet Torres is their bookkeeper and Karl's assistant. They also have a couple of part time employees. This year is an important one in that they are celebrating their 20th year of business and the publication of their 100th price list.

I believe this is the first time that a complete set has ever been offered. I am pleased to be able to offer these very important reference price lists for your

## **MANUSCRIPTS**

#### HARRIS, ROBERT P.

As I had the opportunity to study these manuscripts the thought came to me near the end of these volumes that Robert P. Harris "received so little for a man's work for so much done". When you go through these manuscripts you will see why most books that are published and the preparation by authors is certainly called "a labor of love". The extensive time and correspondence to individuals and institutions all over the world to gather mintage's and information that Harris steadfast did is simply put-impressive & tenacious on his part.

Extensive correspondence to Central Banks, American Embassies, U.S. Treasury, Foreign Service, Churches, Department of State and collectors such as: Prado, J. Davenport, R. Bryne, N. Shafer and others to help in searching for the existence of coins and the quantities minted.

industrial relations for Worthington pump.

Katen began collecting in 1937 and started his own business by opening the Milford Coin and Stamp Shop in New Haven, CT., in 1944. He moved to Washington, D.C. in the late 1950's. Married Laurese Byrd Katen in 1964. Frank and Laurese have conducted 83 auction sales to date.

Frank is busily cataloging his 84th sale to be held this July 1997. As this is being written, Frank will be celebrating his 94th birthday on January 21, 1997. KATEN'S HISTORIC WORLD COINS BOOK

MANUSCRIPT-NEVER PUBLISHED!

Coins of the World Catalog. (late 1930's-early 1940's). 200-300+ pp. Typed in black & red ink ribbon on 8 1/2" x 11" columnar pad ruled paper on both sides for most part. Each page lists the Country, Number?, Denomination, Obverse design, Date, Metal & some pricing. This monumental work lists over 500 Countries, States & Provinces from Aachen to Zwolle. Many Chinese Provinces, European & Mexican States, Various Colonies covering all Continents.

This work was started well before Wayte Raymond's Coins of the World publication in 1947. It, obviously, appears that once Raymond's Coins of the World was published that Franks effort ceased after years of

diligent typing and research.

This historic manuscript is being offered in the Frank Katen of tradition when he was unsure of the value. "Your bid please"

#### CHICAGO COIN CLUB.

"Chicago Coin Club related materials have a rich history and great following among the ranks of numismatic bibliophiles. The Chicago Coin Club was founded in 1919 but has roots extending back to The Chicago Numismatic Society. The first issue of their Bulletin was published in 1936 although a prototype exists, dated 1935. The ranks of the Chicago Coin Club members truly read as the Who's Who of numismatics. These luminaries include Lee Hewitt (he printed the Bulletin while he published the Numismatic Scrapbook), Henri Ripstra, Harry X Boosel (known as Mr. 1873), Glenn Smedley, Vernon Sheldon, B. Max Mehl, Aubrey Bebee, Art Kagin, Abe Kosoff and many more. As you read through these materials you will find these and other names to bring alive the history of numismatics"-Phil Carrigan. 487 Chicago Coin Club Bulletin. Volume 1 Nos. 1 & 2, 1936.

In June, 1923-Volume III, No.1 Whole No. 20 the publication after 19 numbers was acquired by Wilbur F. - 616 No. 149. Bellinger, A.R. & Berlincourt, M.A. Victory as a Coin Type. 1962. 68 pp. 13 plates. Very fine, tan card cover, top right cover corner fold. This study began as a paper in the Yale Graduate School by Dr. Marjorie Alkins (Berlincourt) in 1951. Its initial purpose was to discover, if possible, the appearance of the Victory of the Roman Senate which played so conspicuous a part in the religious controversy of the fourth Christian century. This proved to be an unexpectedly elusive question but in its pursuit the author gathered a large amount of information about the use of Victory on coins, which she presented as a history of type. From the Greek Nike of the 6th century B.C. to the Christian angel of the 6th century. Begins with the first appearance of Nike as a coin type ca. 510 B.C. at Olympia. Describes the mythological origins of Nike and her meaning. Continues with a survey of cities which used Nike as a coin type and the reasons and symbolism's behind the type. Discusses the use of Nike by the Hellenistic kings and Romans.
